

AMERICA'S GREATEST ACTRESS INDORSES AMERICA'S GREATEST REMEDY FOR AMERICA'S GREATEST ENEMY—CATARRH.

Mrs. Leslie Carter Says She "Would Not Have Catarrh for \$1,000,000.00," and Always "Feels Safe as Long as She Has Pe-ru-na at Hand."

THE NATION AROUSED.

GOVERNORS, SENATORS, CONGRESSMEN, THE CLERGY, THE ARMY, THE NAVY.

ALL CLASSES PROCLAIM THE MERITS OF PE-RU-NA, THE ACKNOWLEDGED CATARRH REMEDY OF THE WORLD.

(Extract from a lecture by Dr. Hartman.)

Disease, like Death, is no respecter of persons. The mighty and the humble, the rich and the poor, are alike susceptible to the attacks of stealthy, insidious disease. The silent foe creeps on us when we least expect an assault; those who are not prepared to resist the attack pay the penalty of their carelessness—lingering illness or death. It is astonishing to learn how many people die of catarrh in its numerous forms. Catarrh is fatal. Its victims may linger from month to month or year to year, but sooner or later they must succumb, unless the proper remedies are applied. Catarrh attacks all vital organs of the human frame.

Whether chronic catarrh can be permanently cured or not is a question about which there is a great difference of opinion among the professional few and also among the non-professional masses. The majority of physicians dislike to undertake the cure of this disease, because they know that only the most tireless patience and faithful obedience on the part of the patient, as well as skilful treatment on the part of the physician, will be rewarded with success. Hence it is that a great portion of the medical fraternity hesitate or refuse to treat chronic catarrh on the plea that it is incurable.

The difficulty with which catarrh is cured has led to the invention of a host of remedies which produce temporary relief only. The unthinking masses expect to find some remedy which will cure them in a few days, and to take advantage of this false hope many compounds, which have instant but transient effect, have been devised. The people try these catarrh cures one after another, but disappointment is the inevitable result, until very many sincerely believe that no cure is possible.

If I were asked to name the disease which most rarely destroys life I would name catarrh, but were I asked to name the disease which sets up in the system oftentimes diseases which do destroy life I would again name catarrh. Catarrh, while it remains simply catarrh, very rarely destroys a life, although it makes life miserable; but catarrh surely leads to a host of diseases, many of which are fatal to life. The following list of diseases, too well known in this country, are each and all simply catarrh affecting different organs of the body: Consumption, bronchitis, laryngitis, pharyngitis, stomatitis, otitis, conjunctivitis, gastritis (dyspepsia), intestinalis (chronic diarrhoea and dysentery), nephritis and cystitis are each thought by most people to be essentially different diseases; but the truth is they are catarrh of the mucous lining of the various organs. A medicine that is applicable to any one of the above list of diseases is applicable to them all, as each one has for its cause the same condition. Catarrh is catarrh wherever located, and the remedy that will cure it in one organ of the body will also cure it in any other organ.

PAYMASTER IN THE NAVY.

William A. Collier Says Pe-ru-na Does All That is Claimed for It. Navy Department, Washington, D. C., Jan. 25, 1899. Pe-ru-na Drug Mfg. Co., Columbus, O. Gentlemen: I have taken Pe-ru-na and take pleasure in recommending it to those needing a first-class tonic, feeling assured that it will do all that is claimed for it. Yours truly, WM. A. COLLIER.

GOVERNOR G. W. ATKINSON, OF WEST VIRGINIA. Pe-ru-na Drug Mfg. Co., Columbus, Ohio. Charleston, W. Va., March 9, 1898. Gentlemen: I can recommend your preparation, Pe-ru-na, as a tonic. Its reputation as a cure for catarrh is excellent, it having been used by a number of people known to me with very best results. Very truly, G. W. ATKINSON.

A Prosperous Farmer Cured. Mr. C. H. Jackson, Sugar Land, Tex., says: "I beg to send you my testimonial as to the merits of your Pe-ru-na. For the past several years I have been greatly annoyed with catarrh. I was advised to use your remedy, and it affords me pleasure to write you telling that I have been fully restored after giving your remedy a full and thorough test. I heartily recommend Pe-ru-na to all suffering with catarrh."

A Prominent Merchant Cured. Mr. George E. Nicodemus, New Paris, Pa., who has used Pe-ru-na with satisfactory results, says: "I was suffering with catarrh, not being able to work all of the time. I wrote to Dr. Hartman and received his prescription. I used the medicine as described, and, after using one bottle of your Pe-ru-na and Man-a-lin, I was completely cured."

United States Senator Sullivan. United States Senate, Washington, D. C., July 1, 1898. The Pe-ru-na Drug Mfg. Co., Columbus, Ohio: My Dear Sirs—I desire to say that I have been taking Pe-ru-na for some time for catarrh, and have found it an excellent medicine, giving me more relief than anything I have ever taken. Respectfully, W. V. SULLIVAN.

A United States Senator's Wife. Mrs. F. E. Warren, the wife of Francis E. Warren, United States Senator from Wyoming, says the following in regard to Pe-ru-na: "The sample bottle of Pe-ru-na sent to my husband came when I was suffering with a cold, and I used it with good results."

MRS. LESLIE CARTER.

My professional business as an actress puts upon me peculiar strains and exposures that the average woman knows nothing of. Appearing nightly before crowded houses, subjected to hot and sometimes badly ventilated rooms and occasionally cold draughts, keeps me constantly vigilant to avoid climatic or catarrhal affections.

The slightest cough would ruin me for work. With what is known as an ordinary cold I could no more do what is expected of me than I could fly. Without a remedy at hand which is a positive protection from these ailments I should not know what to do.

No care or forethought can always protect me from slight exposures in going from my rooms to the theatre where I am expected to appear six nights in the week. Without Pe-ru-na constantly at hand I feel sure I should be unable to meet the demand upon me.

After an unavoidable exposure a small dose of Pe-ru-na sets all things right. It is sure to prevent a cold. It will stop a cough before it becomes settled. It cures all catarrhal affections like magic. I have had several slight attacks of la grippe, which Pe-ru-na promptly cured. No money could

tempt me to be without this remedy for even a day. It is just the remedy that all women need, especially such women that are exposed to the vicissitudes of climate, as I am.

I never neglect an opportunity to recommend this remedy to my friends. It is America's greatest remedy for America's greatest enemy—catarrh and catarrhal affections. I would not have catarrh for a million dollars, and as long as I have Pe-ru-na at hand to promptly check the slightest symptoms of its approach I feel perfectly safe from this disease.

N. LESLIE CARTER.

Pe-ru-na Positively Cures Catarrh.

Pe-ru-na is applicable to catarrh of any mucous surface of the body in all stages. From the slightest catarrhal attack or cold to the most chronic or pronounced case of the hypertrophic form of Pe-ru-na is a specific. Its operation is primarily on the mucous surfaces, by giving to each capillary vessel its normal elasticity, thus reaching the cause. Whenever the catarrh is located where it is convenient to make local applications they undoubtedly assist Pe-ru-na in completing a cure, but when this is not the case Pe-ru-na can be relied on to perfect a cure without any local treatment whatever. If the proper hygienic measures are adopted and the medicine taken without interruption. Catarrh of the kidneys, bladder, pelvic organs, larynx, bronchial tubes, lungs and frontal sinuses are all beyond the reach of effective local treatment, and internal treatment is the only hope. Pe-ru-na is equal to the task; it cures catarrh wherever located by removing the cause. The Man-a-lin should be taken at bedtime, and only a small dose, sufficient to produce one natural movement of the bowels each day. In no case should enough be taken to produce the effect of physic.

All the Family Used Pe-ru-na.

"House of Representatives, Washington, Feb. 4, 1899. 'I am more than satisfied with Pe-ru-na, and find it to be an excellent remedy for the grip and catarrh. I have used it in my family, and they all join me in recommending it as an excellent remedy. Very respectfully, GEO. H. WHITE, Congressman White lives at Toronto, N. C.'

CATARRH FOR THIRTY YEARS. Congressman Meckison Believes Pe-ru-na Will Cure Long Standing Cases.

Hon. David Meckison, Member of Congress from Ohio, says of Pe-ru-na: "I have used several bottles of Pe-ru-na and feel greatly benefited thereby from my catarrh of the head and feel encouraged to believe that its continued use will fully eradicate a disease of thirty years' standing."

Lieutenant-Governor Jones.

Dr. S. B. Hartman, who is the manufacturer of the celebrated Pe-ru-na, the great national catarrh remedy, is justly deserving of the praise his providential discovery has brought him from all classes of people. A. W. JONES.

NO BETTER MEDICINE ON EARTH. Gallant Major Mahson Tried Many Remedies, but Was Cured by Pe-ru-na.

Major Algernon A. Mahson, of the Tenth Volunteer Regiment, stationed at Macon, Ga., in a recent letter to Dr. Hartman from Washington, D. C., says: "I think there is no better medicine on earth than your Pe-ru-na for catarrh. It has surely cured me. I would take a volume to tell you all the good it has done for me. Pe-ru-na is the greatest remedy ever prepared, and I think I have tried them all."

WIFE OF A GREAT FINANCIER.

She Took One Bottle of Pe-ru-na and Was Wonderfully Improved.

Treasury Department, Office of Auditor for Interior, Washington, D. C., Dec. 10, 1898. The Pe-ru-na Drug Mfg. Co., Columbus, Ohio: Gentlemen—I've often heard of your great medicine and have persuaded my wife, who has been much of a sufferer from catarrh, to try Pe-ru-na, and after using one bottle she has wonderfully improved. It has proved all you have claimed for it, and I take pleasure in recommending it to any one who is afflicted with catarrh. Yours, WM. YOUNGBLOOD, Auditor for the Interior.

A New York Congressman Speaks.

"New York, Oct. 10, 1898. 'Pe-ru-na is good for catarrh. I have tried it and know it. It relieved me immensely on my trip to Cuba, and I always have a bottle in reserve. Yours truly, AMOS J. GUMMINGS.'

Have You That Catarrhal Cough?

The cough, which is the result of catarrh of the throat and bronchial tubes, is an exasperating, hacking cough with a limited amount of expectoration, which is either frothy or stringy mucus. There is generally a tickling sensation in the throat, worse in the morning, but apt to trouble more or less any time of day or night. The character of the cough changes as the catarrh reaches the lungs, when it becomes like the cough peculiar to consumption. Pe-ru-na is the remedy that can be relied upon in this condition, for, when it is taken regularly according to directions, it does not fail to cure. In these cases two ounces of rock candy should be added to each bottle of Pe-ru-na before taking. The dose for adults is one tablespoonful before each meal and at bedtime.

CONGRESSMAN LINNEY SAYS Every Man Under a Nervous Strain Should Use Pe-ru-na.

Congressman Romulus Z. Linney, from North Carolina, writes to Dr. Hartman from Washington, D. C., as follows: "My private secretary has been using Pe-ru-na for several weeks, and I wish to testify as to its great value and merits in cases of catarrh. My secretary had as bad a case as I ever saw, and since he has taken one bottle he seems like a different man. I do not think any man under a nervous strain should be without it."

REV. JAMES POINDEXTER, COLUMBUS, OHIO.

No man in the capital city of the State of Ohio is better known than the Rev. James Poindexter. For many years he has been the successful pastor of the Second Baptist Church of that city. "My attention was called some time ago to your medicine for rheumatic troubles by Mr. Cook, an old reliable druggist of this city, and take pleasure in saying that I have tried them and found them good. It is my opinion that the remedy, Pe-ru-na, is justly entitled to the fame which it has throughout the United States."

HOW CATARRH STARTS.

THIS DREAD DISEASE RESEMBLES A COMMON COLD IN ITS EARLY STAGES.

SPRING CLIMATE FAVORABLE TO A SPEEDY AND PERMANENT CURE OF CATARRH BY PE-RU-NA.

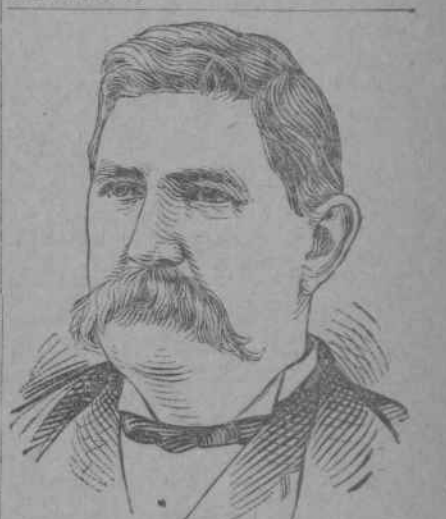

A cold in the head is the first chapter in the history of disease and death, so often repeated that there are few people but have witnessed many examples of it. Rarely severe enough to confine a vigorous person to the house, and frequently ending in speedy recovery without any treatment, have led many to regard it as of no importance, a mis- take which proves to be a fatal one in numberless cases, a few days' use of Pe-ru-na rarely fails to promptly cure this common affection, and yet thousands neglect this remedy because of a false notion as to the gravity of the trouble. A cold in the head is a case of acute catarrh, which will, in a large per cent. of cases, end in chronic catarrh unless properly treated.

If nothing is done to arrest the progress of the disease, after a long time these symptoms disappear. There is less obstruction of the nasal passages, the discharge decreases, perhaps disappears, the membranes of the nose and throat become thin and shiny, little scabs form in the nostrils; when removed they leave raw, bleeding spots, small mucous ulcers, offensive breath and general poor health.

Unless the victim of acute catarrh is promptly cured in the first stage the patient finds that, although the discharge may be lessened, the nasal obstruction still continues, especially when exposed to cold or damp. The discharge becomes thicker, and it is more and more difficult to keep the passages clear. A "nasal tone" takes the place of the customary tone and the breath is drawn through the mouth. The mucous membranes of the nose and throat are thickened and of a dark-red color. Stringy mucus is hawked with difficulty from the throat.

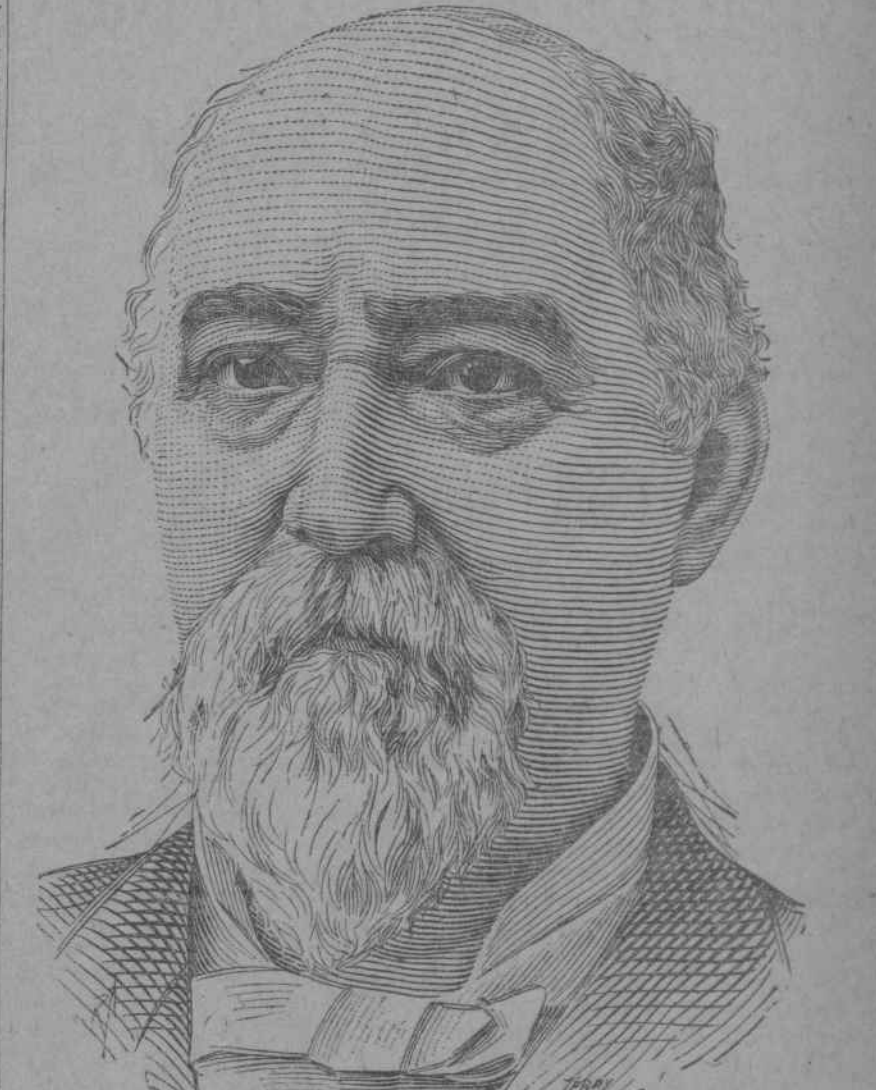

Pe-ru-na enjoys a national reputation as a catarrh remedy. It is the only systematic catarrh remedy yet devised. A thorough course of Pe-ru-na eradicates catarrh from the system. Its cures are permanent, it thoroughly cures very old cases of chronic catarrh that have resisted all other treatment. It has cured cases of twenty-five years' standing. People afflicted with catarrh should begin a course of Pe-ru-na at once. The spring-time is the best season for this purpose.

The rigors of winter have passed, with its chilling blast and freezing gales. The blizzard is gone and in its place the balmy zephyrs of spring have come. A short course of treatment with Pe-ru-na now will work wonders. Now is the best time. No setbacks from fresh colds, no delays from unventilated rooms. People of high and low station recommend Pe-ru-na. North, South, East and West use it as the supreme catarrh remedy of this generation. Everybody should have a copy of Dr. Hartman's latest books on chronic catarrh. Sent free by The Pe-ru-na Drug Manufacturing Company, Columbus, Ohio.

UNITED STATES MARSHAL BRYAN, OF ALABAMA.

Washington, D. C. The Pe-ru-na Drug Mfg. Co., Columbus, Ohio: Gentlemen: I have used Pe-ru-na for catarrh for a short time and have also had several friends try it, and they all pronounce it the best catarrh remedy ever put on the market. It cannot be praised too highly. You can use this testimonial and my photograph in your publications. Yours respectfully, L. J. BRYAN.

GOVERNOR T. C. FLETCHER, OF MISSOURI.

Hon. Thomas C. Fletcher, the noted War Governor of the State of Missouri, is a great friend of Pe-ru-na. He writes: "The Pe-ru-na Drug Mfg. Co., Columbus, Ohio: Gentlemen: For years I have been afflicted with chronic catarrh, which has gone through my whole system, and no one knows the torture and misery I have passed through. My doctor has prescribed various remedies, and I have never found any relief until I was persuaded by a friend to use Dr. Hartman's Pe-ru-na. After the use of one bottle I feel like a new man. It also cured me of a dropping I had in my throat, and built my system up generally. To those who are suffering with catarrh I take pleasure in recommending your great medicine. Very respectfully, THOMAS C. FLETCHER.

A Mechanic Recommends Pe-ru-na to Every One.

Mr. F. Greaske, Fond du Lac, Wis., says: "I took Pe-ru-na for two months and it cured me of my catarrh. I would like to recommend it to every one."

CURED OF CATARRH IN A WEEK.

Congressman Goodwyn, of Alabama, Tells of His Prompt Recovery.

Hon. A. T. Goodwyn, Congressman from Alabama, writes from Washington, D. C., to Dr. Hartman as follows: "Gentlemen: I have now used one bottle of Pe-ru-na and am a well man to-day. I could feel the good effects of your medicine before I had used it a week, after suffering with catarrh for over a year. Pe-ru-na is very prompt in its action. One bottle convinces the most sceptical."

An Excellent Remedy for La Grippe.

"House of Representatives, Washington, Feb. 4, 1899. 'I have taken Pe-ru-na now for two weeks and find it very much relieved. I feel that my cure will be permanent. I have also taken it for la grippe, and I take pleasure in recommending Pe-ru-na as an excellent remedy to all fellow sufferers. Very respectfully, M. W. HOWARD, Congressman Howard lives at Fort Payne, Ala.'
